Introduction

The Mesoamerican Barrier Reef System (MBRS) includes the second longest barrier reef in the world. The MBRS is unique in the western hemisphere on account of its size, its array of reef types, and the luxuriance of corals it contains. The MBRS stabilizes and protects coastal landscapes, maintains coastal water quality, sustains species of commercial importance, serves as breeding and feeding grounds for marine mammals, reptiles, fish and invertebrates and offers employment alternatives and income to approximately one million people living in coastal zones adjacent to the reefs.

Recognizing the importance of the MBRS to the economy of the region and to the natural and cultural heritage of its people, and conscious of the increasing threats to its overall health, the leaders of the four countries (Mexico, Belize, Honduras and Guatemala) bordering the MBRS convened in Tulum, Mexico in June 1997 to pledge their commitment to protecting this outstanding resource. The Tulum Declaration called on the four littoral states of the MBRS and its partners in the region to join in developing an Action Plan for its Conservation and Sustainable Use. The Central American Commission on Environment and Development (CCAD), comprised of the Ministers of Environment of the seven Central American countries and Mexico (as an observer), approached the Global Environment Facility (GEF) through the World Bank to request support for the design of the Action Plan and a strategy for its implementation.

CCAD's request was granted through the Global Environment Facility Trust Fund Grant No. TF-027739 Agreement dated October 18, 2001 among Commission Centroamericana de Ambiente y Desarrollo (the Recipient), the Republic of Guatemala, Belize, the Republic of Honduras, the United Mexican States, and International Bank for Reconstruction and Development (the Bank) acting as an implementing agency of the Global Environment Facility (GEF) in respect of grant funds provided to the GEF Trust Fund by certain members of the Bank as participants of GEF. The grant funds of SDR\$8,500,000 originally budgeted at US\$11,034,377 is valued USD\$13,200,585 at December 31, 2004 (SDR\$8,500,000 at the rate SDR=1.553010) compared to USD\$12,630,745 at December 31, 2003 (SDR\$8,500,000 at the rate SDR=1.48597) would be utilized to implement the Action Plan.

This Action Plan, which provides the basis for a comprehensive, 15-year program of regional and national level activities aimed at safeguarding the integrity and productivity of the MBRS was adopted in June 1999. In light of the long-term nature of the goals and objectives implied in the MBRS Action Plan and supported under this Project, a second strategic choice was made to design the initiative within the context of a long-term regional program, involving a range of potential partners and stakeholders in a phased approach. This Project, therefore, represents Phase I of a proposed 15 year Program, requiring long term commitment on the part of the countries, the donor community, and the many partner institutions currently involved in the region, to achieve the objectives of the MBRS Action Plan. The elements of follow on phases under this long term Program will be determined prior to the end of Phase I.

“The objectives of the Project are to enhance protection of the marine ecosystems that comprise the Mesoamerican Barrier Reef System Project (MBRS), as well as to assist the participating countries in strengthening and coordinating their national policies, regulations and institutional arrangements for the conservation and sustainable use of the MBRS.”

The Project's Executing Agency is the Central American Commission for Environment and Development (CCAD) on behalf of the four countries.

**INDEPENDENT AUDITORS' REPORT ON
SOURCES AND USES OF FUNDS STATEMENT
OF THE
CONSERVATION AND SUSTAINABLE USE OF THE MESOAMERICAN BARRIER REEF
SYSTEMS PROJECT**

We have audited the accompanying sources and uses of funds statements from transactions of the Conservation and Sustainable Use of the Mesoamerican Barrier Reef Systems Project (MBRS); GEF Trust Fund No. 027739 executed by the Central American Commission for Environment and Development (CCAD) for the years ended December 31, 2004 and 2003. These financial statements are the responsibility of the Project's management. Our responsibility is to express an opinion on the financial statements based on our audits.

We conducted our audits in accordance with International Standards on Auditing. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in Note 2, the Conservation and Sustainable Use of the Mesoamerican Barrier Reef Systems Project (MBRS); GEF Trust Fund No. 027739 executed by the Central American Commission for Environment and Development (CCAD) reports on the cash basis which is a comprehensive basis of accounting other than generally accepted accounting principles. Consequently, funds are recognized when received rather than when due and expenses are recognized when paid rather than when incurred. Accordingly, the financial statement is not intended to present results of operations in conformity with generally accepted accounting principles.

In our opinion, the statement referred to above present fairly, in all material respects, the sources and uses of funds of the Conservation and Sustainable Use of the Mesoamerican Barrier Reef Systems Project (MBRS); GEF Trust Fund No. 027739 executed by the Central American Commission for Environment and Development (CCAD) for the years ended December 31, 2004 and 2003, on the basis of accounting policies described in Note 2 to the statements.

In addition, with respect to the statement of uses of funds by project activities, adequate supporting documentation has been maintained at the Project Coordination Unit (PCU) in Belize City (a) to support claims to the International Bank for Reconstruction and Development for reimbursements of expenditures incurred; and (b) to classify which expenditures are eligible for financing under the Project.

YEARS ENDED DECEMBER 31, 2004 AND 2003 (USD)**

1. PROJECT STATUS

Mesoamerican Barrier Reef System (MBRS) Project seeks to protect coral reef and related coastal ecosystems in the region by promoting their conservation and sustainable use. It is a regional project that unites and strengthens efforts in four countries bordering the world's second largest barrier reef. The Central American Commission on Environment and Development (CCAD), comprised of the Ministers of Environment of the seven Central American countries and Mexico (as an observer), approached the Global Environment Facility (GEF) through the World Bank to request support for the design of the Action Plan and a strategy for its implementation. CCAD's request was granted through the Global Environment Facility Trust Fund Grant No. TF-027739 Agreement dated October 18, 2001.

The estimated cost of the project was US \$15,190,000 to be financed up to US \$11,034,377 by the GEF Grant No. TF027739 and the governments of the four countries will be providing in-kind contributions up to US \$4,155,623 according to the budget presented in Annex 1 of the Grant Agreement.

The Project's Executing Agency is the Central American Commission for Environment and Development (CCAD).

2. STATEMENT OF ACCOUNTING POLICIES

The financial statements have been prepared in United States dollars (USD) under the historical cost convention and conform with International Auditing Standards appropriate to the activity in which the project operates.

The Project's accounting and financial reporting system aims to enable users to assess the accountability of the funds available for its activities. In order to satisfy this objective, the following accounting policies have been adopted.

- (a) A "cash basis" which is a comprehensive basis of accounting other than generally accepted accounting principles used in preparation of the financial statements. Cash received from the Bank is recognized when effectively deposited in the Project's bank account. Disbursements are recognized when they are paid.
- (b) All costs related to the Project activities are classified, where appropriate, according to the work plan budget for the period.
- (c) No depreciation is charged on fixed assets acquired from Project funds.

REEF SYSTEMS PROJECT**

We have audited the accompanying Special Account Statements of the Conservation and Sustainable Use of the Mesoamerican Barrier Reef Systems Project (MBRS); GEF Trust Fund No. 027739 executed by the Central American Commission for Environment and Development (CCAD) for the years ended December 31, 2004 and 2003. Our responsibility is to express an opinion on the Special Account Statements based on our audits.

We conducted our audits in accordance with International Standards on Auditing. Those Standards require that we plan and perform the audit to obtain reasonable assurance about whether the special account is free from material misstatements. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the Special Account Statements give a true and fair view of the financial position of the Sources and Uses of Funds and of the Special Account of Conservation and Sustainable Use of the Mesoamerican Barrier Reef Systems Project (MBRS); GEF Trust Fund No. 027739 for the years ended December 31, 2004 and 2003, and the payments and replenishments to that date are in accordance with accounting policies described in Note 2 to the statements.

REPORT ON STATEMENTS OF EXPENDITURES

TO

THE INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT

During the course of our audits of the transactions resulting from the Conservation and Sustainable Use of the Mesoamerican Barrier Reef Systems Project (MBRS); GEF Trust Fund No. 027739 executed by the Central American Commission for Environment and Development (CCAD) for the years ended December 31, 2004 and 2003, we examined the supporting documents held at the PCU in Belize City for the disbursement requests submitted to the Bank during that period in support of applications for replenishment from the grant account.

Our examination was done in accordance with International Standards on Auditing and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the Statements of Expenditures submitted and the supporting schedules and information submitted with them, together with the procedures involved in their preparation by the PCU in Belize City, can be relied on to support the validity of the applications for replenishment.

SPECIAL REPORT ON COMPLIANCE WITH CONTRACTUAL AGREEMENT

TO

INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT

We have examined the records of Sources and Uses of the Conservation and Sustainable Use of the Mesoamerican Barrier Reef Systems Project (MBRS); GEF Trust Fund No. 027739 executed by the Central American Commission for Environment and Development (CCAD) for the years ended December 31, 2004 and 2003 and has issued our report thereon dated March 11, 2005. Our examination was done in accordance with International Standards on Auditing and International Bank for Reconstruction and Development guidelines. Accordingly, we performed such tests of the accounting records and of compliance with terms of the agreement and such other procedures, as we considered necessary in the circumstances.

Based on our examination, the Conservation and Sustainable Use of the Mesoamerican Barrier Reef Systems Project (MBRS); GEF Trust Fund No. 027739 executed by the Central American Commission for Environment and Development (CCAD) for the years ended December 31, 2004 and 2003 was generally in compliance with the financial and other covenants of GEF Trust Fund No. 027739 as detailed in the following compliance schedule.

Dear Mr. Jacobs,

We have recently completed our audit of the resources managed for the year ended December 31, 2004 by the Central American Commission for the Environment and Development (CCAD) under the Project: Conservation and Sustainable Used of Mesoamerican Barrier Reef System Project, financed partially by GEF Grant No.TF027739. During the course of our audit we examined the principal controls which the project has established to enable it to ensure, as far as possible, the accuracy and reliability of its records and safeguard its assets.

Accounting Records

Observation

We must commend the organization for the availability of supporting documentation for the MBRS Project's expenditures and its compliance with the project's financial conditions.

General Comment

Observation

We noted that interest income was agreed on between the Project and UNDP; however, at December 31, 2004 there was no receipt of interest income recorded in your records. We support your continued dialogue on the recovery of any remaining interest that should be credited to the accounts of the PCU from UNDP.

Mr. Noel Jacobs

Procurement Procedures

Observation

Based on the results of our examination of the procurement of consultants, goods and works, we found no major deviations from the procurement guidelines, therefore we must commend the organization for its compliance to the procurement procedures.

Conclusion

We greatly appreciate the opportunity to serve as your auditors and would like to express our appreciation to the key personnel from various departments for their invaluable assistance during our audit. We are also interested in your business on a whole and would like to continue working closely with you.

Please feel free to contact us whenever you feel we might be of assistance to you.

Sincerely,

Deloitte & Touche
